WordSprout

A FAMILY MEMORY PRINTABLE

Our First 100 Words

A shared tracker for noticing the words your child uses across people, places, and languages.

Child / nickname _____ Started _____ Completed _____

1 · Notice

Write down a word when you hear it used meaningfully. It can sound wonderfully imperfect.

2 · Add context

Mark the date, language, and caregiver who heard it. One word can appear in more than one language.

3 · Share

Pass one simple observation between parents, grandparents, sitters, and teachers.

This is a memory journal, not an assessment. Children communicate in their own ways and timelines. The examples are prompts, not a required list or age-based checklist. If you have concerns, talk with a qualified professional who knows your child.

English + Español prompts are included for convenience. Use any language your family speaks, and add your own words on page 7.

WORDS 1-20

People & home

Mark: date · language · caregiver initials

Examples are conversation starters. Use the blank space after each translation for your date/language note.

Our people • Nuestra gente

01	**mama**	mamá	□ _____

ONE-MINUTE CAREGIVER HANDOFF

"Did you hear a new word today?"

What happened, who was there, and which language did you hear?

Keep the story going in WordSprout.

Save words across languages and caregivers in one private family journal. WordSprout is a memory and organization tool, not a diagnostic or therapy service.
